

CTE Board Report

January 2018

CTE Updates

We will be offering Worksite Learning as a choice in the course catalog for next year. Worksite Learning is program where students would be able to earn credit through their employment.

CTE Month is coming up in February. Our goal is to educate students and promote our CTE course offerings and clubs to our student body during the month.

The Career Fair will be taking place again this year on Wednesday, March 28th.

Middle School

Computer Science - Students just completed learning HTML5 and Cascading Style Sheets, where they built their personal websites. Students are now starting to learn java to build animations.

STEM - Students have started learning how to block code Spheros through Java block programming

Robotics - Students completed learning how to use a Gyroscope to determine angle of turn and program their robots to use the gyroscope to determine their turns. Students are now building a hill climbing robot and determining the proper gearing and weight distribution to maximize their builds

Agriculture Education/FFA

- Jan 13th-FFA students participated in the Outhouse Races in Conconully.
- Students are currently preparing State Degree and Proficiency applications for state.
- Month of February-FFA Week-Greenhand and Chapter Degree Ceremony, Cell Phone Safety Program to 4th and 5th graders, I Hate Winter Party, Staff Appreciation snack.
- 1/27/18: FFA Trap shoot at Kettle Falls Gun Club
- 2/7/2018: FFA Ag Mechanics Team to Manson High School – welding, small engine repair, and other ag mechanic competitions with schools in the district.
- 2/21/2018: FFA Ag Mechanics Team to Brewster High School – welding, troubleshooting, part identification competition with schools in the district.
- 2/24/2018: FFA Trap shoot at Tonasket Gun Club

Business Education/FBLA

Nine FBLA students have been preparing for competition in a variety of areas by taking online tests and preparing for speeches and presentation events. Four out of the nine students elected to only compete in online testing events so that they could participate in the ski trip, which conflicts with the FBLA Winter Conference on January 20th at Wenatchee High School. Five students will be traveling to the Winter Conference. Accounting I, Accounting II, Web Design, and Technology Fundamentals are moving along smoothly.

We will be offering a Computer Science class in next year's course catalog in order to see what the student interest is and whether or not it will be a feasible class to add to next year's master schedule.

Theatre Tech/Drama Club

- The Drama club is currently working on their spring show. Auditions were held Jan. 5th and rehearsals began this week.
- We are eagerly awaiting the critiques from the 5th avenue theater on our Fall musical.
- We have begun to talk about a variety show for the late spring time.

Family and Consumer Science Education/FCCLA

Three teams recently competed in a local Top Chef competition. The winning team traveled to Sun Mountain Lodge to compete for the Regional Title for FCCLA Top Chef.
