## Highlands High School Principal Report - January 2018

At this point of the school year, our students are completing courses daily and our Highlands staff are preparing for additional students for second semester. HHS teachers will be meeting with our current students and developing their goal plans based on the student's Written Student Learning Plan; for new students that enroll at the beginning of the semester, HHS teachers will create a WSLP with the student. Learning plans are individualized for each student.

HHS enrollment and course load has increased since the beginning of the school year, our teachers caseloads are over 40 students with students accessing between 1-4 courses (depending on the amount of periods enrolled). Our team meets twice a month to discuss and plan how to support our students.

### Highlands High School Data at a Glance

Enrollment																
Program	Head Count	Oct FTE	Head Count	Nov FTE	Head Count	Dec FTE	Head Count	Jan FTE								
HHS Full Time	10	9.82	20	19.58	22	21.58	23	21.89
